Subject: complete tech background document with attachments
Attachments: EPA-HQ-OAR-2012-0788-DRAFT-0017.pdf

Hi Rick,

I found the complete tech background document for the 40 CFR Part 192 update with the attachments. I thought you might like to have it, too.

To provide info about the Part 192 update, here is the website:

<https://www.epa.gov/radiation/40-cfr-part-192-proposed-rulemaking-and-background-documents>

This info is important, because it was during this process the EPA decided that a geochemical model was adequate to replace post-restoration monitoring at uranium ISR sites. I had planned to reference this info in the updated Class III fact sheet.

Now that the EPA has decided the Part 192 update is no longer necessary, we have to be careful how we reference this info. Lucita will help us with that.

Valois
